- Next steps
- This exhibition provides information on the progress of the preparation of a planning application. It gives you a chance to review proposals for the site and make comments prior to the submission of the planning application and ask the team any questions you may have. We would really value your feedback on the proposals at this stage.

A planning application is likely to be submitted within a few months. Once submitted, the Council will undertake an additional consultation with statutory and non-statutory consultees as well as local residents, lasting 21 days.
